# DataCamp once asked me to join their teaching team

New Year, New Courses to Teach at DataCamp - Check Em' Out! ➔ [Inbox x](#)

 Jen Bricker <kelsey@datacamp.com>  
to me ▾

Hi Kasidis,

DataCamp is proud to present an exciting slate of new Courses rolling out in 2019 - and we want to give YOU the first chance to teach them!

We are introducing brand new courses in:

- Python
- SQL
- R\*

(\*ONLY the R courses on the wishlist are available at this time. We expect these to go quickly, so respond quickly before they're all gone!)

The current list of available courses can be found [here](#).

If you're interested in joining us, apply [here](#) - or let me know if I can answer any further questions.

Cheers -

Jen Bricker - Head of Instructor Recruiting

Kelsey McNeillie - Instructor Recruiting Coordinator

Kasidis, you're a great fit for our Data Scientist Certification ➔ [Inbox x](#)

 Toon from DataCamp <careerhub@datacamp.com> [Unsubscribe](#)  
to me ▾

Hi Kasidis,

As one of DataCamp's most skilled learners, I wanted to personally reach out to let you know about our Professional Data Scientist Certification.

This is the perfect time to get certified because we just launched a summer certification challenge. Opt-in by August 5 and complete your certification by September 30 to receive a career coaching package—more than \$400 in value.

Once you're certified you'll get access to resume and portfolio reviews, mock interview sessions, personalized job matching and so much more!

[Click here to get started.](#)

See you on DataCamp soon,

Slide Presentation (Google Slides)

Average price of top 10 toyota models between 1998 and 2020

From the above graph, we can see that more recent models (years 2020) have higher average prices i.e. the longer you use the car, its price goes down. Average prices of some models decline faster than others, for example RAV-4 and Hilux.

Next let preview our final prepared dataset for a modeling phase.

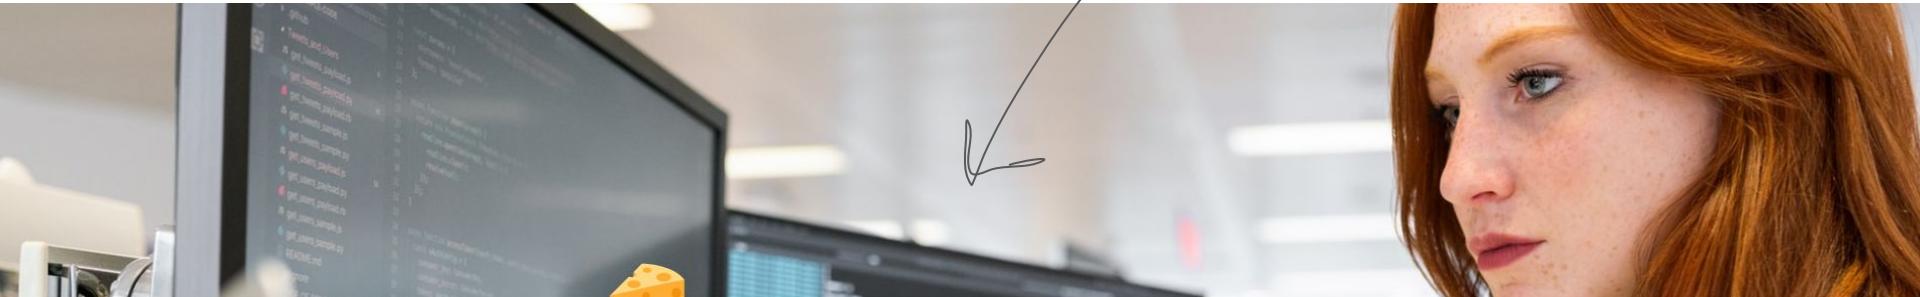

A wide-angle photograph of a mountainous landscape. In the foreground, there's a dense forest of tall evergreen trees. Beyond the forest, a wide valley opens up, leading towards a range of mountains. The mountains are partially covered in snow, particularly the peaks in the background. The sky is blue with scattered white clouds.

### Who we are

TrueMoney is a leading international Fintech brand and is part of Ascend Money, a digital financial services venture of The Charoen Pokphand Group (CP Group) and Ant Financial (Alibaba), two of the largest companies in Asia. We are now one of the largest financial life platforms in Southeast Asia, growing from just 1 market to 6 markets in a span of 2 years. We currently have significant operations in Thailand, Cambodia, Myanmar, Indonesia, Vietnam, and the Philippines.

### Job Description

- Collaborate and work closely with cross-functional business across regional BI teams to identify data management gaps and issues.
- Perform data extraction from operational databases / various sources, setting up data pipelines to align and sync data marts for operational BI reporting
- Ensuring data pipeline is running on 95% availability.
- Fix data inconsistencies and data definitions across regions and ensuring 99% data consistency and accuracy.
- Using data and apply relevant statistical methods to figure out market and business trends to increase profits and efficiency.
- Generating accurate key measurements performance report in timely manner; including consistently monitoring and update to both local and regional team.
- Perform ad-hoc analysis to analyze business cases and present it to stakeholders

### Qualification

- Degree in computer engineering, computer science, information systems, or any related field
- Min 2 – 3 years working experience

### Mandatory Skills

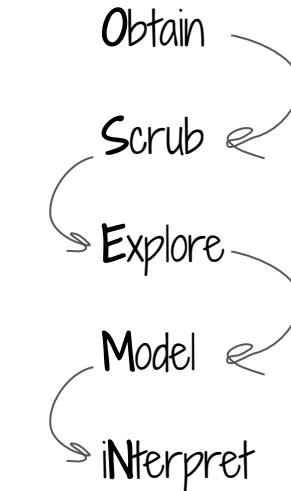

- Experience in data extraction, transformation and loading (ETL) tools, e.g. Jenkins
- Structured Query Language (SQL) scripting, Python scripting (R will be a good to have)
- Experience building data visualization dashboards using Google Data Studio (Tableau will be a good to have)
- Experience working with data residing on Google Cloud Platform Big Query Tables.
- Good communication skills in English

A photograph of a modern living room with exposed red brick walls. In the foreground, a woman sits on the floor, looking at a laptop. In the center, a man sits on a green sofa, also looking at a laptop. To his right, another man sits on the sofa, looking down. In the background, a woman stands near a fireplace, talking on a phone. There are several potted plants and a large mirror on the wall.
